

Tigerspike Challenge

Test Analyst

Please take time to review the annotated wireframe below.

Next, document your process, with examples, of crafting:

1. A User Story statement
2. Acceptance Criteria
3. Test Cases

The wireframe illustrates a 'Dashboard' with a 'Create new task' form. The form includes fields for 'Task name', 'Due date', and 'Assign Team Member', along with a 'Send notification' toggle and a 'CREATE TASK' button. Annotations point to specific UI elements:

- Open side menu:** Points to the hamburger menu icon in the top left corner.
- Existing Task:** Points to a task card on the dashboard showing a 'Team Member' profile and 'Task name'/'Due date' fields.
- Open "Create new task" form:** Points to a '+' icon labeled 'Create new'.
- Close form and do not save draft:** Points to an 'X' icon in the top right corner of the form.
- Text input field (Maximum 30 character limit):** Points to the 'Task name' input field.
- Open date picker:** Points to the 'Due date' input field, which includes a calendar icon.
- Dropdown of Team Member lists from Salesforce:** Points to the 'Assign Team Member' dropdown menu.
- Send notification to assigned Team Member:** Points to the 'Send notification' toggle switch.
- Submits form and refresh Dashboard:** Points to the 'CREATE TASK' button.
